

PENNSYLVANIA LEGISLATURE OF 1921 IS NOW AN UNPLEASANT MEMORY ADJOURNMENT AT NOON TODAY

Governor Sproul Revolutionizes Procedure in Successful Effort to Put Administration Program Through in Closing Days of Very Dilatory and Unsatisfactory Session.

\$25,000,000 FOR STATE CHARITIES

Harrisburg, April 28.—The 1921 session of the Penna. assembly will be a matter of history shortly after noon today with only a few hours remaining to act on the last important bills. The House and Senate met today at 10 a. m. and heard the report of the committee on the inheritance and gasoline tax and Woner prohibition enforcement bills.

These measures and the general appropriations are the last of the administration's proposals that remain to be acted upon.

The Governor today received the welfare department bill the inheritance tax bill, mine cave bill and the Senate reappointment measure passed late yesterday.

Harrisburg, April 28.—The House during the closing hours of the session today withdrew its objection to the amendments by the Senate to the Woner prohibition enforcement bill. The action gives the state an enforcement code which meets with the approval of the administration. The vote was 153 to 14.

Harrisburg, April 28.—Approximately 150 appropriations bills went to the Governor today after successfully passing the Senate and House early this morning. A bill provides for approximately \$25,000,000 to maintain the various homes, hospitals and institutions of the state for the next two years.

Appropriations to the following institutions in this region were passed:—Indiana Hospital, Punxsutawney Hospital Association, State Institute for the Feeble Minded at Polk, Connelville Hospital Association, Adrian Hospital Association, Punxsutawney and the Clearfield Hospital.

Harrisburg, April 28.—A resolution declaring the action of the House of Representatives on Tuesday of this week a "disgrace to the commonwealth, offered by Representative Crum, of Huntingdon was ruled out of order" by Speaker Whitaker today as a "reflection on the members."

FOUR MORE YOUNG SINN FEINERS WERE EXECUTED BY BRITISH IN IRELAND

Cork—Four young Sinn Feiners were executed in the barracks here today by a firing squad. They were Patrick O'Sullivan, Thos. Mulcahy, Patrick Ronayne and Maurice Moore. They were charged with waging war against the Crown Forces. O'Sullivan and Ronayne were lead before the firing squad at 8 o'clock. When their bodies were removed 15 minutes later the other two were taken before the firing squad. At the barrack gates a crowd of relatives had collected. They were comforted by two priests. The women in the crowd were much affected by the volleys which announced the death of the men. The crowd remained kneeling while the volleys were heard which announced that the sentences had been carried out.

GERMANY INFLICTED WAR DAMAGES AMOUNTING TO 32 BILLION MARKS

Paris, April 28.—Germany during the war inflicted damage of about 32 billion gold marks on the Allies and their associates according to the Allied Reparations Commission which completed its task today. Germany's offer of 50 billion gold marks compared with these figures is a proposal to settle her debt about 39c on the dollar.

The Allied bill of damages was submitted last night to the German representatives. The Reparations Commission completed its task three days ahead of schedule. The bill of damages was to have been ready May 1, 1921.

ONE MAN KILLED AND ONE BADLY INJURED IN PENNSYLVANIA WRECK

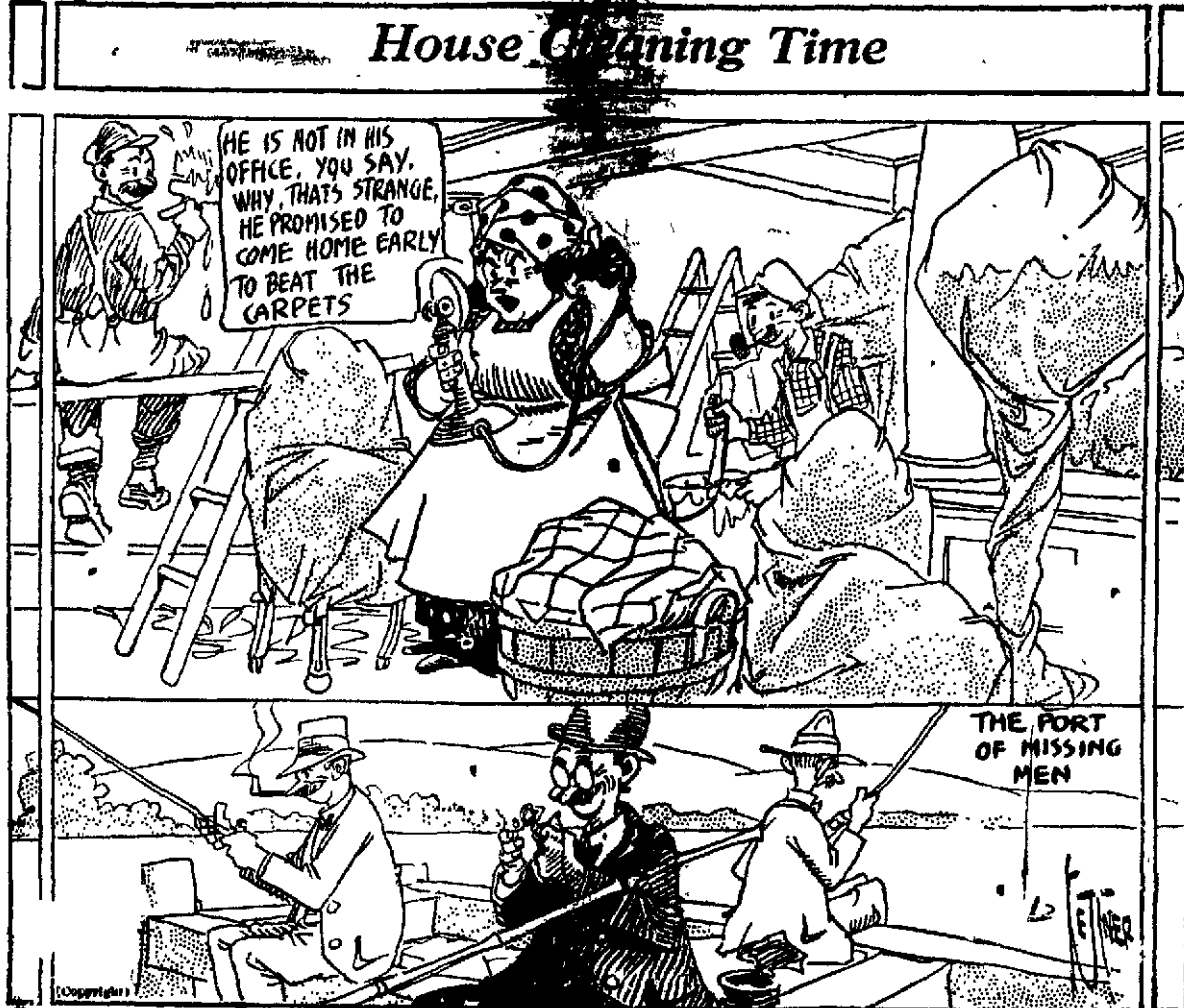

Altoona—One man was killed, one seriously injured and several slightly hurt when the New York Express on the Penna. railroad enroute from Pittsburgh to New York was derailed near Gallitzin early today. Fireman Earl Wines of Deer was found dead beneath the wreckage. Engineer Andrew Dummire of Irwin was badly crushed. The train left Pittsburgh at 7 o'clock last night.

ROCHESTER MURDERER'S FATE DECIDED TODAY

Albany, April 28.—Whether James L. Odell, Rochester youth, will go to the death chair in Sing Sing prison tonight will be decided by Governor Miller today. The Governor who yesterday heard argument on the case spent last night over it. Odell with his wife, murdered Joseph Kneip, in Rochester a year ago. The wife is now serving a life sentence in Auburn prison. Recently she became a mother and Odell has never seen the boy.

ERIE RAILROAD SHOPS TO CLOSE

Hornell, N. Y., April 28.—Effective next Monday the Erie railroad shops here will close indefinitely according to notices posted today. More than 1200 men will be effected by the shut down.

CIRCUS ARRIVES AND KIDS ARE NOW HAPPIEST ON EARTH

Big Aggregation Camped Near B. R. & P. Station. Parade Was Good and Matinee Draws Big Crowd—Another Show Tonight

DON'T MIND WEATHER

The circus is here. The happiest kids in town today are the fifty or more youngsters who, perched on the top-most row of the blue seats, are witnessing all the hair raising deeds of daring the sensational performances of the Mexican acrobats gratis.

Emulating the example of Monday, they were up betimes this morning, soon after the break of day and, with Johnnie, Jimmy and Mickie, were on hand long before the first section of the Main circus train pulled slowly into the yards.

A big man with a big hat and a big cane came out of one of the coaches and hailed the kids.

"Want to get a ticket for the show?"

"Sure," said Mickie and Jimmie and Johnnie.

"All right, line up there and follow me."

"Kin we see the elephants first?" timidly enquired Jimmie.

With his question scarcely asked, Jimmie, Johnnie and Mickie let out a whoop of delight, for sticking out of an end window of one of the big stock cars, was a long trunk, a head as big as a barrel and a pair of fan ears that flopped with pendulum precision.

A big door was rolled open, a run-way put in place and six great big pachyderms, treading carefully down the runs, lined up along the road and stretched out their trunks, inviting tid bits from the crowd.

Great beggars, these bulls.

Then came the camels, single and double humped, and horses, great big fat, broad backed bays and greys, all harnessed and ready for work.

In canvass covered cages lions, awakened by the cries of the kids and the shouting of orders by the bosses, joined in a loud roar of welcome, tigers snarled and even the monkeys chattered with glee over the fact that another circus day had dawned.

Circus Is Well Equipped.

The equipment of the Walter L. Main show came in for much favorable comment. It was very evident that the management had not overlooked any little detail to expedite the erection of the big tents or move the show from the train to the show grounds. A big ten ton truck made quick trips to and fro, hauling strings of heavy wagons, with much saving of time and horse flesh. The elephants, pressed into the service, raised all of the big center poles, and a specially devised rigging that ran from pole to pole, raised them all at one time. A steam table and gasoline ranges made the cooking of the three

AMERICAN LEGION WANT POPPY WON WANT POPPY WORN

When in 1917 the honor of the flag and the safety of the country were assailed by the foe, unheeded of danger, brave men rushed to the defense of American traditions. They went ready to give their all.

Some went across the sea, some stayed in camps at home, but all did a "man's work," and when victory had been achieved, they came home. But not all; many were lying in Flanders' Fields, forming the corner stone of the foundation of the peace of the world.

For these heroes, for their sorrowing mothers, and in gratitude for the security we are enjoying today, thanks to their sacrifice, let us keep in a sacred and reverent manner Memorial Day, May 30th.

The American Legion has chosen the Poppy of Flanders' Fields as a Memorial flower to be worn on May 30th. It has requested that the emblem be not commercialized, therefore the flowers are being made in the very places where the boys fought and won and where—so many sleep.

The profits will be given to the relief of children in devastated France.

Let us try to organize our district so that May 30th proves to be a "National Demonstration of Reverence and Admiration" for the men who served in 1917-18, bringing glory to the flag—honor to the country—peace to the world.

Let every true American man, woman and child consider it a sacred obligation on that day.

The Junior Women's Club, with a true patriot's spirit, has consented to sell the poppies, a few days before and on Memorial Day.

There are three kinds of poppies coming from Flanders' Fields.

Memorial Day poppies are 10 cents each or more, as one feels generously inclined.

Decorative poppies, 25 cents each or 5 for one dollar. These are for ceremonials, banquets, placing under tablets or in windows as a sign of loyalty.

Poppy Corsage bouquets for balls and dinners at 15 cents each.

RELAY TEAM OFF FOR PHILADELPHIA

The Clearfield High School Athletic Club's five man relay team left on the 8:20 P. R. R. train this morning for Philadelphia where they go to participate in the University of Pennsylvania relay games which will be held on Franklin Field Friday and Saturday.

The team is made up of Cecil Torrence, Nate Smith, Bruce Norris and William Brown. The team was in charge of Coach Heisey.

They will make their headquarters at Green Hotel while in Philadelphia.

The relay race in which the Clearfield team entered is scheduled for Saturday afternoon at 1:30 o'clock.

RAILWAY UNIONS CHARGE WASTE AND INCOMPETENCE

Chicago, April 27.—The railway labor unions fighting wage reductions before the railroad labor board increased their charges of waste and inefficiency on the part of railroad managements by a quarter-billion dollars today. In a supplemental exhibit to that filed last week, setting forth alleged waste of a billion dollars, the employees charge that possible savings totalling \$1,276,500,000 could be effected by the roads if they would introduce modern methods in maintenance and operation.

The larger American railroads spent \$6,000,000,000 for operating expenses last year, the exhibit showed.

"It can be demonstrated that six billions is altogether too much to move the traffic in hand," the report said, "that failure to introduce savings rests primarily with railroad management and that the public accordingly is not getting a dollar's worth of service for the dollar it spends in rates."

Freight Performance Poor.

Freight car performance, due to inefficiency, leads to "startling deductions," the report continued, saying that a freight car travels an average of only twenty five miles a day, is loaded about two thirds of the time and 5.6 to 7 per cent of all freight cars are chronically unserviceable.

A table on car performance showed that of the New England roads, the Boston and Albany averaged 32.2 miles per day, while the New Haven got but 12.8 miles.

National unified control or regional control offers larger possible economies, the exhibit said, and cited federal control during the autumn of 1918 "when traffic was at its heaviest, with practically a complete absence of transportation stringency, in contrast to the years immediately preceding when such stringency had almost amounted to railroad paralysis."

STATE BOARD WILL SIT AT PUNXSU

Referee Gus M. Gleason has received notice that the Workmen's Compensation Board will hear appeals from his decisions at Punxsutawney, Wednesday, May 11th, and DuBois on May 12th.

The Workmen's Compensation Board is comprised of three commissioners, Honorable Harry A. Mackey of Philadelphia, Honorable Paul W. Houck of Shenandoah, Schuylkill Co., and Honorable Benjamin Jarrett of Farrell, Mercer county. Lee Solomon, Secretary of the Board, a number of stenographers, doctors, etc., will complete the party.

This is the first time that the Board has ever held hearings on appeals outside of the larger cities. All arrangements for the hearings are in the hands of Referee, Mr. Gleason. As the appeals to be heard by the Board are from all over District No. 10, it is expected that a big crowd will be in attendance at the hearings in Punxsutawney and DuBois.

GERMAN REPLY TO BRITISH ON REPARATIONS UNSATISFACTORY

London—Germany's reply to the British request for amplification of her reparations was stated today as being highly unsatisfactory. The British foreign office dropped the matter and will leave it to the Supreme Council to pass on the responsibility of the German proposals. The German answer was said to be vague and could throw no light on the ambiguities in the Allied proposal. "The time has gone when vague offers can be considered", a foreign official told the United Press. "A definite statement is essential now."

"The German offer of 50 billion gold marks is considerably below the Paris claim," according to this official, "and unless terms are made clear the allies will not accept it." So far as Great Britain is concerned it was stated the matter has been dropped.

London, April 28.—The German reparations proposals are "thoroughly unsatisfactory," Premier Lloyd George told the House of Commons today. The offer is "unanimously regarded as inadequate" he said, but it was not "thoroughly examined."

LABOR WAGE BOARD READY FOR BUSINESS

Chicago, April 27.—The arrival of two of President Harding's new appointees to the Railroad Labor board today will increase that body to seven when the wage reduction hearing involving nearly 100 railroads, reconvenes tomorrow morning.

W. L. McMenemer, the new labor board, and Ben Hopper, the public's new representative, arrived today and Samuel Higgins, the third new member representing the railroads, is expected tomorrow morning. Albert Phillips, labor member, still is in California, where he was called recently by the illness of his wife.

With only a week's time to prepare their reply to the mass of statistics which the carriers have placed before the board last week, the unions have been working hard to gather rebuttal material in their fight against wage reduction. Numerous exhibits have been filed with the board during the week. These will be supplemented by oral arguments by various leaders and specific replies to cost of living and wage statistics filed by the roads.

According to the board's ruling, the employees will have five days of five hours each to present their case. The roads last week used three days reserving the remainder to reply to the employees' testimony when they have put in their case.

Chicago, April 28.—Railroad workers presented to the United States Railroad labor board today a plea against wage reduction asked by the railroads. They denied the assumption of railroad executives that the cost of living had gone down sufficiently to warrant a reduction in wages had been cut in similar institutions.

Fred Brown, of DuBois, transacted business in town yesterday. Misses Pauline Wolf, Murian Dyer and Dorothy Wolfe, of Curwensville, spent last evening in town.

Mrs. Blanche Rowles, of Olanta, spent yesterday shopping in our stores.

Charles Hipps and Paul Collins of Curwensville, spent last evening with friends here.

Harrisburg, April 28th.—United Press—A final drive is being made in the Senate today to bring the Mothers Assistance fund to at least \$1,700,000. It was reduced in the House to \$1,200,000.

Rep. Vickerman, Allegheny, sponsor of the bill, states this is inadequate to help the needy mothers of the state. It would not assist more than half of 6,500 women eligible for this aid, he said. "They have been waiting three years and about 25,000 children are to suffer if we do not get this appropriation," Vickerman declared.

In a statement issued by the Mothers Assistance committee, composed of women from all over the state, it is claimed that "the Mothers' Assistance fund, administered by County Boards of Women trustees, assists in the support of dependent fatherless children in their own homes, under the care of their own mothers at less than half the expense of maintaining them in institutions."

It was also pointed out that "the Executive Committee of the State Association of County Commissioners has gone on record in favor of the appropriation of \$2,250,000, thus showing that the commissioners all over the state are ready and anxious to match the full amount in the 48 counties now organized, and counties not now organized are preparing to take advantage of the law when the new appropriation is available."

Vickerman explained that the amount of \$1,700,000 asked for is less than Massachusetts, a smaller and less populous state, spent last year for Mothers' Assistance and that New York City has a budget of \$3,000,000 for this purpose each year.

THE STOCK MARKET

NEW YORK, April 28.—Twenty o'clock prices on the stock exchange today were: American Locomotive 86 3-4, Anaconda 40 1-2, Baldwin Locomotive 69, B. & O. 35 3-4, preferred 48 3-4, Bethlehem Steel 51 1-2, 59 3-4, Central Leather 33 1-2, Crucible Steel 82, Erie 18, preferred 13, General Motors 13 5-8, Middle States Oil, 34, Pennsylvania 34 1-8, Republic Steel 43 3-4, Sinclair 26 5-8, Westinghouse 48.

CLEANN UP CAMPAIGN BEGINS TOMORROW. ARE YOU READY

Tomorrow launches Clearfield's clean-up campaign. The school boys and scouts have been enlisted to work in their own neighborhoods. They will keep an eye open for the delinquent cleaner.

If the junk and refuse (not garbage) from each property is put in boxes and placed at the curb by Friday noon, it will be hauled away in trucks lent to the Board of Health. Members of the Board, shuddering at the thought of fly infested tin cans, especially urge that not a single can be left.

Sweepings should be gathered up and burned. It does no good to sweep and let the sweepings lie out, since the wind will only scatter them again.

Doubtless next Sunday streets and properties will look as though they led to the pearly gates themselves. But the advantage will be lost unless the standard is maintained. If in the future no truck were thrown about, no cleaning would be necessary.

With all properties spotless, flies dead or discouraged, streets flushed and walks swept, we bid fair to spend a summer in Utopia. The natural charm of Old Town will be displayed at its best. The proud citizen can justly puff out his chest.

We Like Satisfied Customers

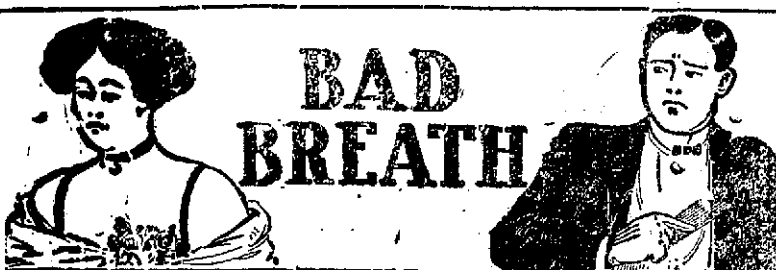

It pays us in a business way and assures future sales. That's why we sell Johns-Manville Regal Roofing—the rag-felt roofing that is made by one of the oldest and largest manufacturers of roofing. Regal Roofing is backed up by Johns-Manville Responsibility. Ask us about this exclusive feature.

(Continued from Page One)

meals an easy task for the commissary department. There was a harness shop and a blacksmith, both busy as union men are supposed to be, and a big wagon with an electric light plant furnishes electric light for all of the tents. The three stables were filled with some of the best horses ever seen

forth steam and cloudy black smoke like some monster and pierced the ear with the strains of "Broadway Rose" and "Margie." The air callopie was also there with late music a bit more soothing. There were open dens of animals, sections of mounted men and women, all attractively garbed in new and costly wardrobe, beautifully gold leafed and gilded dens of open cages, horses driven single and tandem, the best display of horse flesh seen here with any circus, wild west

here, and the show's tents were all new and it was claimed by the show men to be absolutely waterproof. It must be said for the show also that it possesses the most attractive train ever in Clearfield. We are told by press agent Fletcher Smith that all of the cars are standard Pullmans and that all of the principal artists and executive staff occupy staterooms.

It looked as though all Clearfield took half an hour off at noon to view the big parade. It came in the nature of a surprise, for no one anticipated such a glittering pageant.

Bands discoursed music freely. The big steam callopie belched

cowboys and cowgirls and everything that went to make up a regulation circus parade.

There was a very large audience at the performance this afternoon and it lasted for nearly two hours with never a dull moment. Features there were plenty. Downie's trained elephants, introduced by Miss Dot Snyder, went through a series of evolutions, worked fast and gave the very best act of its kind ever seen here. The Gregories were another big feature. They are sensational balancers, working up and down a set of ladders. Their stage setting represents a modern parlor and they balance every ar-

Cline were pretty riders and there were other sidings by the Romigs and the O. Westneys. May and Dot were a scream with their comedy bicycle act, and there was some fancy roller skating by Batsford & Fielding. The aerial Cowdens took desperate chances on the trapeze and there were wire acts and other features that made up a splendid program, not forgetting the clowns who were really funny and were constantly at it all through the long performance.

The Walter L. Main show is a clean, well managed circus, the officials are courteous and the show is well worth seeing.

WOULD PUT BEER OUT OF BUSINESS

Washington, April 25.—As the first step of the fight in congress to tighten up the volstead prohibition enforcement law, a bill designed to prohibit the sale of beer to the sick on a doctor's prescription was introduced in the house today by Chairman Volstead, of the Judiciary committee.

The measure would not prohibit the use of wine for medical purposes, but would make more specific and stringent the regulations on this subject. Frankly declaring there was no real necessity for beer as a medicine, Mr. Volstead announced that this bill, described as supplementary to the national prohibition act was put forward at this time to meet the situation created by the opinion of former Attorney general Palmer that beer and wine could be prescribed.

Tentative regulations announced last week by Prohibition Commissioner Kramer, but which await approval by David Blair, the new Commissioner, an arbitrary limit of 4-7-8 gallons of beer and three gallons of wine was fixed as the maximum that might be prescribed by a physician at any one time. Mr. Palmer had ruled that the law fixed no limit.

Regardless of what Commissioner Blair may rule, Mr. Volstead indicated that the prohibition forces in the house were prepared to take the bull by the horns and let the world know that there will be no beer. The bill will be referred to Volstead's committee for hearing and report. Members opposed to any modification of the dry law said tonight it probably would be reported to the house substantially as drawn. There were predictions from many dry quarters that its passage was certain.

TRY REFORESTATION ON WILD LANDS

An earnest and comprehensive effort at reforestation is being made by the members of the Punxsutawney Hunting Club on their 4,000 acre tract in the mountains of Clearfield county, which land they purchased about two years ago for hunting purposes, says The Punxsutawney Spirit.

A year ago several thousand seedlings were planted on the tract by members of the club and tomorrow a half dozen members of the organization will leave by truck for the camp with 10,000 three year seedlings of white pine and Norway Spruce. They will remain in camp the remainder of the week putting the seedlings in place. Full 90 per cent of the several

thousand seedlings planted a year ago, are flourishing and there is every indication that the majority of them will reach healthy maturity. The members of the club plan to place several thousand seedlings secured from the State Department of Forestry, each year.

INDEPENDENTS TAKE SECOND GAME

The Independent Bowling team who are playing the Business Men's team a series of three matches for the pennant in the Y. M. C. A. league won last night's game by 298 pins.

They broke all records for the year in high team scores, with 1671 pins,

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach aches, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

an average of 186.

The series now stands one apiece, the Business Men having won Monday night's contest.

The score:

Why 2 Cents?

It would cost you hundreds of thousands of dollars a year to keep in touch with farm progress the country over if you were the only farmer who wanted to read

The COUNTRY GENTLEMAN

But there are 800,000 other farmers who feel that they couldn't be without it—that's why this unmatched farm service costs you but a single dollar for a whole year—less than 2 cents a week!

Your lone dollar couldn't buy the services of fifty trained investigators who travel all over the United States in search of just the ideas and plans that will be most useful and profitable to you. It couldn't buy the genius and effort of master story-tellers—men like ZANE GREY, HENRY OYEN, ALBERT PAYSON TERHUNE—who write the distinctive and interest-compelling fiction that each issue contains. It couldn't buy the time and thought of the many experts on farm home economy who are always ready to help your wife with her problems—or the work of widely-known artists and cartoonists. But because 800,000 other farmers also want these very things, you can get them all for just \$1.00—52 big, helpful issues. Let me have your order today.

There's no better buy for one dollar

DO YOU KNOW OF THESE A. R. C. ACTIVITIES?

To the public who are interested in their community.

Do you know all the school children of the public schools have been weighed and measured at the Red Cross Rooms and records kept of same?

Do you know each child having a physical defect is followed up into their homes by the A. R. C. School Nurse?

Do you know every Thursday afternoon a nutrition clinic is held at the Red Cross Rooms—Attendance 24-35 weekly?

Do you know a well baby and sick day clinic is held every Wednesday from 3-5 P. M.?

Do you know four Hygiene and Home Care of the Sick classes are held every week at the Red Cross Rooms—Total attendance 72 weekly?

Do you know we have well equipped rooms for these clinics and classes?

Do you know we have a loan closet to be used for an emergency?

Do you know that visitors are always welcome?

All of the above is being accomplished here and elsewhere with the Red Cross funds.

But occasionally an emergency arises in relief work right here in our own community, such as providing nourishing food, helping to provide glasses, or perhaps dental work is needed and cannot be afforded. For this there is no provision.

To raise such a fund the Red Cross Committees on Nursing Activities are undertaking a series of Auction Bridge parties, the first to be held in the Thayer Auditorium, Friday, May 6th at 7:30 P. M. The date has been changed from Tuesday the 3rd, because of other attractions booked for that night.

Tickets at 50c will be on sale this week.

BUSINESS MEN DEFEAT INDEPENDENTS

The Business Men's bowling team of the Y. M. C. A. Bowling League defeated the Independent team last night by 145 pins, in the first game of the series of three match games to decide for first place in the league standing. The second game will be rolled off on Wednesday night.

The score follows:

Business Men			
Yeaney	183	158	212—553
Laffer	193	133	145—471
Kreher	155	181	212—548
Totals			1572
Independents			
H. Roseberry	154	178	210—542
R. Roseberry	156	191	153—500
Durst	170	104	111—385
Totals			1427

OLD TIME CIRCUS MAN HERE

E. G. Holland, the 24-hour man ahead of the Walter L. Main circus, made this office a pleasant call yesterday. Mr. Holland is an old time circus man and was with three generations of the Robinson family with the John Robinson circus.

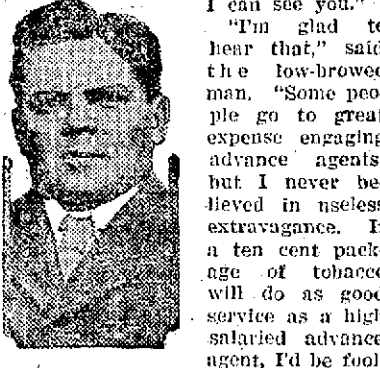

Mr. Holland was in Clearfield with the Robinson show at the time of the Shaw House fire, away back in 1881, and looked the ground over on his trip this time.

He is a very pleasant gentleman and knows the circus game from soup to nuts.

BAD HABITS

"YOU would be a much more agreeable man," observed the professor, "if you would abandon the disgusting tobacco habit. Your aroma is the breeze to such an extent that I know you are coming before I can see you."

I can see you."

"I'm glad to hear that," said the low-browed man. "Some people go to great expense engaging advance agents, but I never believed in needless extravagance. If a ten cent package of tobacco will do as good service as a high priced advance agent, I'd be foolish to keep the ten cents."

"People are always asking me why I don't quit tobacco, and I've always noticed that the people who regard my little innocent habit with disgust, have worse ones of their own. Why don't you quit wearing sideburns, when you must know that they jar the nerves of the fastidious, and make you look like something that should be in a museum? What sense is there in wearing sideburns? I'd be the last to speak slightly of an infirmity or deformity. If you had a game leg or wry neck, my heart would be full of sympathy for you. Such afflictions should not be mocked or held up to scorn by any man; but nobody needs to wear sideburns. It's something that can easily be helped. You shouldn't make caustic remarks about the tobacco habit until you have had those fire escapes removed."

"Old Doolittle asks me about three times a week what pleasure I find in using tobacco. I have explained the matter to him repeatedly, but nothing I say seems to make any impression on him. He clings to the belief that smoking is on a level with robbing a church or defrauding a widow."

"He doesn't use tobacco, but he has about every other bad habit you can think of. When it comes to spilling the truth he could give cards and spades to the whole Ananias family. I try to be reasonably truthful, I never spring a fish story unless it will serve a good purpose. But Doolittle will go to all sorts of trouble to hand you a falsehood. If he says he has the toothache, you may rest assured it's a sprained ankle that's bothering him. I contend that it's worse to sit on the truth and hold it down than it is to load a good old briar and blow out a few reams of smoke."

"Aunt Julia is always lecturing me about the tobacco habit. I have said it a hundred times, and I say it again, that my aunt is all wool and a yard wide, and you would travel far before finding a better female, but if you think she has no bad habits you have another guess coming. Two or three years ago she read some English society novels. Those stories are full of tea parties. A man reading them would think the Britishers spent all their time at tea fights."

"Aunt Julia thinks that anything British is entirely proper, and she got the idea that you can't be fashionable unless you consume a certain amount of tea. So she blew herself for the herb, and began drinking it. At first she said it tasted like cod medicine, but she persevered, and now she's the champion middle weight tea drinker of this burg. I won't say anything about the money it costs. She insists upon having imported tea, and won't be satisfied with any home grown substitutes, although sage tea is far better and costs next to nothing."

"She gets on a tea jag every time she has company, and then for two or three days she has a hangover, and her nerves are a sight to be seen, and I just wish you had to live in the same house with her at such times. Then you would be willing to admit that there are worse things than smoking."

"Talking, for instance," sighed the professor.

Virgin Islands Export Sugar.

The most important agriculture in the Virgin Islands is sugar, of which approximately ten thousand tons was exported in 1919. In 1919 the government succeeded in opening the Porto Rican market to cattle from the islands. About \$30,000 worth of cattle were exported, and it is thought that the cattle-raising industry will eventually become an important one. Exportation of cattle to Porto Rico formerly was prohibited on the ground that the Virgin Islands were in the tick-infested area.

Many Times.

Young Col. Theodore Roosevelt was taken to task at a dinner in Albany, by a young matron.

"I should have thought," she said, reproachfully, "that you'd have stuck to the army, colonel."

"But politics is so much more exciting," the young legislator retorted.

"Politics more exciting than war?" "Yes, indeed," said Colonel Roosevelt. "In war, you see, you can be killed only once, but think how many times you can be killed in politics!"

Not Once, but Many Times.

Love is something neither of the two understands until each has explained it to the other.—Life.

ODDS AND ENDS AND THINGS

"By Skinny"

Mrs. Mary Allen, left stranded at Baltimore, Maryland, with two small children and no funds, decided to make the long journey overland to relatives in Wabash, Indiana. She arrived in Elizabeth, N. J. with the children in a baby carriage and after replenishing her supplies from funds given her by sympathizing city firemen, again took up the long hike, trundling the baby carriage and its load ahead of her. A wheel came off the carriage and the Mayor solved the problem by buying tickets for the little family and they continued the trip by train.

Enforcing prohibition is some costly proposition. Police Commissioner Enright of New York, asked the Board of Estimate of the big city for \$100,000 additional expense money to enforce the dry law, stating that it was necessary for his men to buy a few drinks as they moved about hunting evidence.

THE COMMON MAN

"He lived just a common, everyday life. With his own children and only one wife."

Never was known in the news of the day, Worked all the while without stopping to play, Went to bed early and got up the same, And all his days were what is called time. Still, he had merit: he cared for his own; Asked naught of others, stood up alone; Made no one trouble, led in no strife, Lived just a commonplace, everyday life!"

Benton H. Thomas, State Legislator for Louisiana, is seeking to render first aid to Dan Cupid, and has introduced a bill in the legislature at New Orleans providing for the establishment of "marriage stations" throughout the state. He says young men and young women matrimonially inclined, would be given a chance to meet in these "stations," under the eyes of watchful matrons, and go into a church for the finals. Great system!

Those of us who have lived in this community for more than we care to confess, take but little note of the passing time, and the changes made with the rapidly receding years. We were prompted to note the above observation by recalling that just thirty years ago, on the 28th of April, 1891, the first photograph for the first time of the photographic studio he yet occupies in the Staver Block on Market street.

Howard celebrated his thirtieth anniversary yesterday and in talking with the Cylum man, said the only other Clearfielder in business at that time and who occupied the same quarters then that he does now, was Andrew Harwick, the Market street harness maker.

What few old timers there are left, when you get right down to brass tacks and count them over.

The fewer clothes one wears the higher one's temperature, is the statement of a well known physician. Now we know why they call some of our Clearfield girls "hot babies."

A 500,000,000 candle power searchlight, the most powerful in the world, whose rays can be seen for seventy miles, is undergoing final tests on a searchlight range at Schenectady, N. Y., before shipment to San Francisco, where it will be installed on Mount Tamalpais, at the entrance to the Golden Gate.

The light is ten feet high and weighs three tons and has a sixty-inch lens. A man standing ten miles away from the light could read a newspaper. Ten feet away he would be able to light a cigar by means of it.

Troubled political waters through the world will prevent a move now by the Harding Administration for world disarmament. This was made plain, following one of the longest cabinet meetings on record.

The President made it clear his administration is not inclined to move even for limitation of arma-

WHAT ABOUT TOMORROW?

By Evangeline Booth

(Commander Salvation Army Forces in U. S.)

The Salvation Army in the United States, taking annual preaching law-and-order-and-loyalty to flag and country to stock of its aggregate activities, has made the discovery that it nearly twenty million people in this country every year. It has in consequence issued a statement to show what a blow it is dealing Bolshevism between the eyes by means of its unremitting efforts to salvage man and woman in 833 cities and towns.

"Without ever realizing into what a field they were drifting our corps officers have unconsciously been preaching against Bolshevism for years" said Commander Evangeline Booth in commenting on the Army's Americanization work. Miss Booth has been in charge of the organization's activities in the United States for the past sixteen years, during which time she has had ample opportunity to study the political and economical situation in all sections of the country. "Our officers have probably done more to make the working man, the laborer, satisfied with conditions surrounding his everyday life than the people of this country realize. Our whole aim in life is to make those with whom we come in contact satisfied to in some measure, curb the feeling of discontent and try to instill into the hearts of our hearers a desire to leave on their associates a lasting impression for good.

"Capital's duty to Labor—Labor's duty to Capital" are all given their share of attention in these open air meetings, and always we endeavor to show that each has a definite claim on the other which is beyond dispute that for a united working force each must safeguard the rights of the other.

"There is scarcely a man or woman, boy or girl who does not stop even if for only a few moments to hear what the Salvation Army officers has to say. Our audiences comprise people in all walks of life. There the capitalists stands side by side with the laborer and each hears the plea of the other. At one street corner meeting recently held in California there were noted in the group of listeners Henry Ford, John Burroughs and Thomas Edison. With them were laborers, mechanics and men without jobs entirely. It was Mr. Ford, who, in a spirit of admiration for the organization took up a collection from the crowd on the street.

"That some definite impression is made is shown by the fact that our records show, for the past year, 32,738 converts, the majority secured through the street corner meetings. And it can be safely said that thousands of these converts held in their hearts feelings of bitterness, oppression and resentment against all mankind until they fell into the hands of the Salvation Army.

"Everything which can possibly help for the betterment of the people of the United States which will make strong splendid citizens rather than a perverted Bolshevik army is being done by the Salvationists. In New York City alone first citizens papers by the hundreds have been paid for by the Army when foreigners, would be soldiers have indicated their desire of joining the rank of Uncle Sam's uniformed forces.

Clearfield county's three members of the legislature were not able to agree on the upheaval at Harrisburg which resulted in the ousting of Speaker Spangler and the naming of Representative Whittaker in his place. On the motion to strike from the records the events leading up to the switch of Speakers and the election itself, Miller and DeHaas voted with the administration force against the resolution, while Phillips voted with the Grundy-Oliver crowd, in favor of Spangler.

"The Poppy Lady" Brings Flowers from Flanders Field for Memorial Day

Mrs. ANNE E. GUERIN

The Poppy Lady of France has come to America to remember to America against the war. She has brought with her millions of tiny red silk poppies, the kind that "grew on Flanders Field" and she is going to help America unite with France on Memorial Day in honoring the brave dead who sleep in French soil.

The poppy has been adopted by the American Legion and other patriotic organizations as their memorial flower. It was at the American Legion convention last Fall that Mrs. Anne E. Guerin was selected "The Poppy Lady of France," a name by which she is now known on two continents.

The Poppy Lady is the founder of the American Legion's "Poppy Campaign" in France and America. She is a growing movement which seeks not only to aid the little war-wounded but also to help the more important, those who have died in vain.

Children of both nations to remember and to foster the friendship which had its inception on a battlefield.

Its members in France, war widows and orphans, have made the millions of red poppies—each a symbol of the spirit that sustained the victorious nations during the years of struggle when the outcome of the conflict was in doubt. It is a symbol, too, of the love and gratitude France bears for America.

On this Memorial Day, France will cover the graves of American soldiers with poppies, while every patriotic man, woman and child over here will wear a poppy to show that the "brave dead have not died in vain."

Exide BATTERIES

You Have a Right to Expect More

than ordinary lasting power from an Exide Battery.

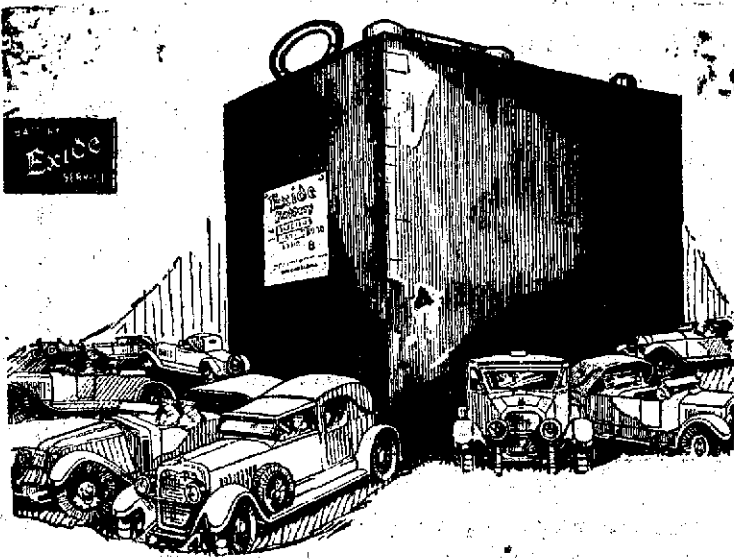

It was the first automobile battery, as it was in central station and other fields long before automobiles were invented.

The Exide for your car is the result of experience gained in every field by the oldest and largest makers of storage batteries in the world.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

TIMELY REMINDERS FROM THE PENNSYLVANIA STATE COLLEGE

Sprays—State College entomologists and pathologists again emphasize the necessity for apple spraying. The petal fall spray should be followed in two weeks or when the young apples are the size of hazelnuts, by the cluster apple spray. It should be a rather drenching spray for scab, apple blotch, red bug, caterpillars, frog eye and leaf spot.

Garden—During the war a popular slogan ran "collar the kaiser and the cabbage too." Small tar paper disks placed about cabbage plants when they are set out will protect the plants against cabbage maggot.

Poultry—At this time of the year many hens become broody. Often nests are found and the eggs mixed in with the day's collection. If the eggs are questionable either candle them before setting, or keep them for your own family use.—State College.

STATE DEPUTY WARDEN PAYS STRIKING TRIBUTE TO NERV-WORTH

Frank H. Dinsmore, Former Ohio State Deputy Warden Gave This Weighty Statement Recommending Nerv-Worth Some Time Ago

"While in Columbus some time ago I tried a sample dose of Nerv-Worth and I then concluded I'd try a bottle when I got home," said Mr. Dinsmore, who lives in Coshocton, Ohio. "I was tired out and my system was run down, and I thought a tonic like Nerv-Worth would do me good, and I found it brought the answer. I am highly pleased with the results, and cheerfully recommend Nerv-Worth for run down people."

The above is but one of the many statements from people who hold high public offices. Such men do not endorse anything that does not have merit and for that reason their statements offer the most convincing of proof. If you are in a run down nervous condition, or suffer from stomach troubles, give Nerv-Worth a trial, and if it does not help you, your money will be refunded. You will finally come to Nerv-Worth for satisfactory results, so why not start now? Be sure to get the genuine in the large round bottle. Price \$1.25 plus tax. Sold by leading druggists everywhere.

INDEPENDENTS DEFEAT BUSINESS MEN

The Independents bowling team of the Y. M. C. A. League, turned the tables on the Business Men's team last night, by 308 pins. Each team has now one game to its credit. Friday night of this week they will roll off the deciding game.

The score follows:

Independents.			
H. Roseberry	185	146	166-497
R. Roseberry	223	204	150-660
Bentz	213	216	150-598

WILLIAM B. RAUCH

William B. Rauch, son of Mr. and Mrs. J. W. Rauch, both deceased, was born Feb. 21, 1873, died at his home in Mineral Spring, Bradford township, April 19th, 1921, aged 48 years, 1 month, 29 days.

Mr. Rauch suffered an illness of 4 months duration before the end came. On March 20, 1921 he married Margaret A. Conaway. To this union was born ten children, seven of whom with his widow, survive him. The surviving children are: Bernice, William, Jr., Samuel, Anna, Paul and Esther at home and Mrs. Gordon Wisor of Mineral Spring. His one and only grandchild little Robert William also survives him. He is also survived by five brothers and four sisters. His body was taken to Karthaus and laid to rest in the family plot in the Oak Hill cemetery.

Mr. Rauch was a resident of that section until four years ago he moved to Surveyor and in October last moved to Mineral Spring, where he spent his last few months on earth.

Along with his sorrowing family and relatives he left many friends who were grief stricken to hear of his death.

The funeral services were conducted by Revs. Strayer of Woodland and A. E. Fleck of Pottersdale.

Dearest father, thou hast left us, And our loss we deeply feel But 'tis God that hath bereft us, He can all our sorrows heal, Yet again we hope to meet thee, When the day of life is fled; And in heaven with joy to greet thee, Where no farewell tear is shed.

DOG OWNERS WILL BE MADE SETTLE

Many reports are coming into The Progress office concerning the many dogs running rabbits. The complaints are general and have been turned over to State Game Protector Davis, who promises to investigate same and not only kill the offending dogs, but bring the owners to justice.

The game laws provide a fine for persons owning dogs and allowing same to run game out of season, and this law will be invoked by the Game Protector.

Try a West Ad.

EYESIGHT

The old saying that "you never miss the water 'till the well runs dry" applies to your eyesight. You'll not miss it until it's gone.

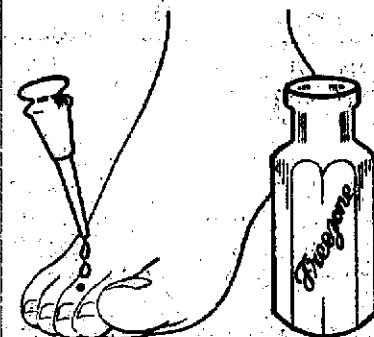

Guard against your eyesight going bad by having me fit glasses that will preserve the functions of this important sense.

MRS. ARCHIE JURY DIES

Mrs. Elmina Mains Jury of Surveyor, died Wednesday, April 20, 1921, at 1:15 a. m., aged 33 years, 10 months and 21 days.

She leaves to mourn her death her husband, Archie Jury and the following children: Ethel, Francis, Wilfred, Mary, John, Esther, Violet, Hyland.

She is also survived by her mother Mrs. Rebecca A. Mains and her father D. A. Mains and five sisters and three brothers, viz: J. G. Mains of Bradford twp., V. D. Mains of Bradford twp., David Mains at home, Mrs. Mary Hubler of Lancaster, Mrs. Louisa Evans of Clearfield, Mrs. Charlotte M. Mains of Bigler, Mrs. Elizabeth Hummel of Shiloh and Mrs. Verena Hubler of Lumber City.

The funeral was held on Sunday, April 24 at Congress hill in M. E. church by Rev. J. F. Strayer of Woodland U. B. church. He delivered a very impressive sermon. Interment was had in Congress Hill Cemetery.

Mrs. Jury was a member of Surveyor Union Class, and a very devoted Christian woman. She was very well respected everywhere and will be missed throughout the community as well as at home.

Call for a Conquering Hero.

Map has conquered the air, the Indians and the elements, and has subdued the bear and other wild animals. There ought to be some way of taming the auto, since he has to live with it. —Minneapolis Tribune.

Wedding Bells Wedding Rings

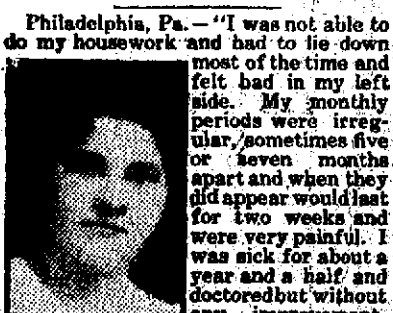

These beautifully significant hand-carved wedding rings are now on display at our shop. They typify and perpetuate the joyous sentiment of the wedding day. The tiny bells and blossoms are most wonderfully carved. These handsome, seamless rings symbolize most happily the joy and sentiment so cherished by every woman.

Platinum, White, Yellow or Green Gold as desired.

HOWE'S JEWELRY STORE

AN OPEN LETTER TO WOMEN

Mrs. Little Tells How She
Suffered and How Finally
Cured

Philadelphia, Pa.—"I was not able to do my housework and had to lie down most of the time and felt bad in my left side. My monthly periods were irregular, sometimes five or seven months apart and when they did appear would last for two weeks and were very painful. I was sick for about a year and a half and doctored but without any improvement. A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me, and the second day after I started taking it I began to feel better and I kept on taking it for seven months. Now I keep house and perform all my household duties. You can use these facts as you please and I will recommend Vegetable Compound to everyone who suffers as I did." —Mrs. J. S. LITTLE, 3455 Livingston St., Philadelphia, Pa.

How much harder the daily tasks of a woman become when she suffers from such distressing symptoms and weakness as did Mrs. Little. No woman should allow herself to get into such a condition because such troubles may be speedily overcome by Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American women to health.

During the months of May, June, July, August and September the merchants whose names appear below will close at noon on Thursdays.

Gossip for Tonight's Tea Table

Thomas She... of Indiana, Pa., is a patient at the Clearfield Hospital where he is taking medical treatment. F. D. Le... left this morning for Philadelphia where he will take in the Penn. relay races and the State Dental Convention. He expects to be away from town until Miss Nora Peterson, of O'Shanter, spent yesterday shopping in town.

Mr. and Mrs. J. Fred Weaver and Tom Wallace motored to Pittsburgh today, where they will spend several days.

Born to Mr. and Mrs. Charles P. Livingston yesterday, at the Clearfield Hospital, a son, Mrs. Livingston was formerly Miss Jesteadt Ellenberger.

Paul Stauffer left yesterday for Harrisburg, where he will spend the next few days.

Mrs. Guy B. Shaw is spending the week at the home of C. M. Shaw in Pittsburgh.

Frank Howard, of Bedford, spent last evening with friends here. Mark Plank and Abe Addleman, of Philipsburg, attended the dance here last evening.

Mr. and Mrs. Sylvan Williams have returned from their wedding trip, and are now at the former's home on Hannah street.

Kenneth Knepp, of Woodland, spent yesterday with his mother, Mrs. Reena Knepp on Fifth street. Mrs. Clifford Zerby is ill at her home on Reed street, with tonsillitis. Mr. and Mrs. W. E. Wallace left today for Pittsburgh, where they will attend the wedding of their son Bruce.

Mrs. R. B. Eschelman, of Bigler, spent yesterday shopping in town. Clair Robbins, of Tyrone, spent yesterday with friends here.

Nathan Smith, Cecil Torrence and Albert Shugarts are spending a few days in Philadelphia.

Mrs. Albert Peters and four sons of Woodland, spent today with relatives here, on their way to Ironville. Mrs. Earl Bowes has returned from visiting her sister in Punxsutawney.

BASEBALL SEASON OPEN TOMORROW

The baseball season will be opened at Curwensville tomorrow afternoon in a game between Linsengier's "Wildcats" and the Curwensville American Legion team.

Both teams have been practicing hard for this opener and a good snap game is assured all who attend.

These two teams have arranged a five game series and Friday's game will open that series.

There is great rivalry between the teams and the interest is growing as the time for the opener nears.

Daily Thought.

You were made for enjoyment, and the world was filled with things which you will enjoy, unless you are too proud to be pleased with them, or too grasping to care for what you cannot turn to other account than mere delight. —Ruskin.

Everything in Drugs

You'll find, if you're from out of town, that this store has a stock of every thing that you'd expect to find in a well-kept drug store and then some things will surprise you.

Visit us without fail while you're in for the circus.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with Riverol. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like.

Hosts of Summery Tub Frocks

- of Flowered Voiles
- of crisp organdies
- of handkerchief Linens
- of dotted Swisses, tinted

.... Whether you are going to have two, three or a dozen Frocks this summer you will enjoy choosing them all right now while every mode is new, fresh and unhandled. Of course, you may not wish to don them immediately but you will be mighty gratified that you made your selections of pretty tubable Frocks bright and early, when those who delayed will be searching about for appropriate modes after the first heat wave has made itself felt.

Thin Frocks summery in style, fabric and colorings—as delightful in every way as the most fastidious tastes could desire—are enough of an excuse, if indeed one is needed, for getting the Summer ward robe in readiness at once. And with prices way down, lower than they have been for years on the selfsame qualities, every woman will feel that there is really no reason why she shouldn't hearken to her present impulse to buy and to buy in quantities.

GINGHAM DRESSES

priced from 4.95 to \$25.00

ORGANDY DRESSES from \$12.50 to \$35. IMPORTED SWISS DRESSES \$19.75 to \$47.50

FRENCH VOILE DRESSES \$19.75 to \$29.75.

Hats for Summer

The sun can't beat down too ardently upon the maid or matron who wears one of these glorious new modes designed for summer wear for their graceful brims droop just enough to shield the eyes.

The leghorn modes, youthfully floppy, cover their brims with radiant silks or flowers. The Georgette Hats accent their delicate Summery tones with gorgeous ribbon trimmings. Choose yours now and get three full months of joyous satisfaction out of it. \$5 to \$15.

A. W. Leonardson Co.

As Much Spent Annually For Tires As For Roads

One Billion Dollars Is
Yearly Bill For Both—
Good Roads Would
Save Millions.

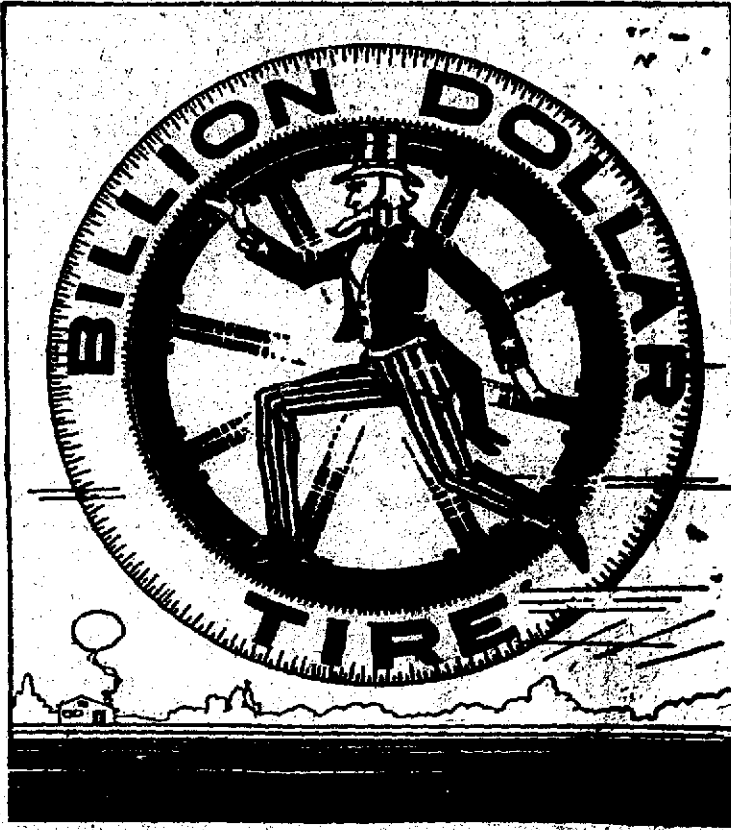

ONE billion dollars.

That's the country's annual tire bill according to M. O. Eldridge, director of roads, American Automobile Association. American automobile owners are spending a thousand million dollars for 40,000,000 tires every year, he estimates.

A billion dollars is difficult to comprehend. The Pennsylvania Hotel, New York, the world's largest hotel, cost \$15,000,000. The Woodworth Building, New York, the world's tallest office building, cost \$12,500,000. The U. S. S. Lexington, one of the six new United States battle-cruisers, the greatest man-of-war of its kind, is to cost \$75,000,000. All of the electric railways in the United States in 1917—the most recent available statistics—took in \$603,125,820. The Panama Canal was built for \$375,000,000. The total value of all the passenger automobiles manufactured in 1919 was \$1,461,785,925.

As much money is spent annually for tires as is spent for roads. "It is high time," says Mr. Eldridge, "to pay more attention to the effect of the various road surfaces on motor vehicles instead of considering only the damage by the motor vehicle to the road. Compare, for instance, the smooth-resilience of Fifth Avenue, New York (paved with sheet asphalt) with the rough, gritty and flinty surfaces so often encountered on country roads, and try to imagine what a tidy sum in tire bills would be saved if we could all travel on avenue surfaces. The saving in tire costs alone would pay the difference in construction costs in many instances."

Automobilists are beginning to realize that road surfaces are responsible for our heavy tire bills. If all roads were built to conserve tires, every automobilist knows the type he would select. He would choose a linoleum-like surface rather than a sandpaper surface. Tire wear isn't confined to ripping open or cutting the tire with jagged stones. The passage of a

tire over millions of sharp-edged sand crystals on a rigid road means minute lacerations and pitting of the surface of the tire, followed by disintegration. This would not occur on the linoleum surface, and the nearest thing to linoleum is sheet asphalt, and next to that asphaltic-concrete. Furthermore, both are resilient, which lessens stress on all parts of the car. Asphalt has the shock-absorbing property found in the tire itself.

In an effort to grade the various road surfaces in accordance with what may be considered their relative destructive effect on tires, the American Automobile Association has prepared a chart showing the

probable tire mileage it is possible to obtain on each group being expressed in percentage terms, with 100 as percent. Group No. 1, rated at 95 to 100 per cent., includes sheet asphalt, bituminous concrete (good), bituminous and gravel treated, macadam and gravel; cement concrete with bituminous surface; wood and asphalt block (smooth).

Group No. 2, rated at only 85 to 90 per cent., includes water-bound macadam or gravel (rough); earth muddy with deep rut containing loose gravel and stones, or earth frozen or with sun-baked ruts, or covered with loose chips or sharp gravel.
